Ideas generated

- Make fields mandatory based on Category / Priority (UI Policy).
- Hide fields that are not relevant to the request type (UI Policy).
- Auto-fill Urgency when Priority changes (onChange Client Script).
- Block submission when Short description is too short (onSubmit Client Script).
- Show inline help messages next to fields (Client Script).
- Server-side Business Rule for every check.

Prioritization

Idea	Impact	Effort	Decision
Conditional mandatory / visibility	High	Low	Do first
onSubmit validation	High	Low	Do first
onChange auto-fill	Medium	Low	Do next
Inline help messages	Medium	Medium	Do next
Server-side Business Rule for all checks	Medium	High	Later (out of scope)
